

Project Information

Project Name: Snoqualmie Lift Stations

Project Location: Snoqualmie, Washington

Owner: City of Snoqualmie

Project Contract Value: \$182,000.00

General Contractor: Hisey Construction

Project Completed Value: \$182,000.00

Architect:

Project Duration: 6 Months

Engineer: Gray & Osborne

Scope of Work:

Fast paced construction of two replacement lift stations for the City of Snoqualmie. Projects required new service, motor control centers and control panel installation. The locations of these raised buildings and working around existing operating stations created very challenging projects.
